

# Sound Solutions

We specialize in the design and manufacture of a full line of exhaust system and emission control products.

**You'll Find Silex Products Working in these Markets**

**Engine**

- Power Generation
- Marine
- Locomotion
- Gas Compression
- OEM-Engine Driven

**Compressor/Blower**

- Pneumatic Conveying/Aeration
- Vacuum Systems

**Industrial**

- Energy
- Processing

**Contractor**

- Installation/Systems
- Electrical/Mechanical

**System Packaging**

- Generator Sets
- Blowers

**Look to Silex for:**

**Service**

Friendly, reliable direct sales team to assist you with your requirements.

**Performance**

Silex products are built to perform and exceed your expectations.

**Quality**

Durable and built to last.

**Price**

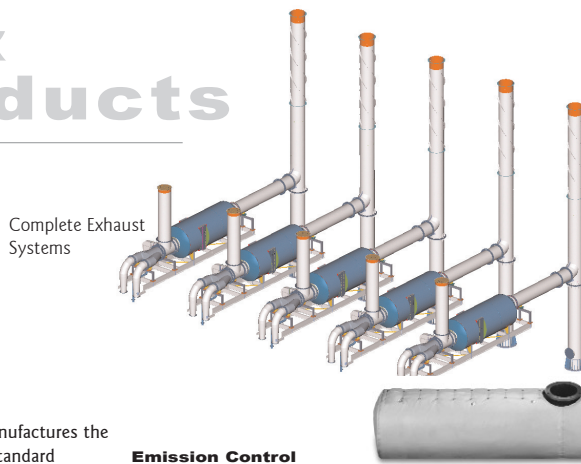

More than low price, we offer greater value.

Silex is expert and responsive. We supply you with the widest range of standard and custom exhaust components to suit your specific applications.

Silex engineering manuals and price lists are available on CD-Rom or on our secure website.

## Silex Products

Complete Exhaust Systems

Silex has the widest product range in the industry.

**Silencers**

Silex designs and manufactures the widest selection of standard silencers available from one supplier. Plus, we can custom design and manufacture models to suit your specific requirements. Silex silencers range in size from 1 1/2" to 60" inlets.

**Emission Control**

Silex manufactures a complete line of industrial-sized catalytic converters and catalytic converter-silencers with both 3-way catalyst and oxidation systems. Our SileNOX 3-way non-selective catalyst provides maximum reduction of NOx, CO and HC.

SileNOX

**Insulation**

Silex designs and manufactures in-house our own complete line of insulation blankets used on exhaust components from the engine turbo to the exhaust silencer and all of the piping and elbows in between.

**Connectors**

Silex has a full range of connector products including:

- Stainless steel flexible connectors which incorporate engine mating and silencer mating flanges
- Expansion bellows manufactured with multiple ply stainless steel
- Wye Connectors for dual outlet engines
- Stainless steel braided connectors

**Vibration Isolators**

Designed specifically for rugged generator set applications, the Silex SMD and SMD2 vibration isolators provide an inexpensive way to isolate engine and generator set vibration from buildings and structures.

Silencer

Spark Arrestor Silencer

Hockey Puck Silencer

Dual Inlet Silencer

**Accessories**

For all your exhaust accessories Silex provides a multitude of options including:

- Elbows
- Raincaps
- Flanges
- Gaskets
- Tubing
- Hanging & Mounting Bands
- Wall and Roof Thimbles both insulated and uninsulated

Raincap
